

Need help using ThomsonNow™?

Want to make the most of your ThomsonNow Account?

Visit www.thomsonedu.com/support and select **ThomsonNOW** in the "students" box and click "go."

You'll find:

- ▶ A "Start Smart" Guide that gets you up and running quickly
- ▶ A list of Frequently Asked Questions that shows you how to get the most out of ThomsonNow™
- ▶ Downloads and technical information for optimizing the performance of ThomsonNow on your computer
- ▶ An "e-mail" link to submit your question to a Thomson technical support specialist.
- ▶ Online Chat feature allows you to quickly ask your ThomsonNow questions in real time.

Important Information:

Mainstream browsers (Internet Explorer and Mozilla Firefox) are compatible with ThomsonNOW. Make certain your computer is ready to begin using ThomsonNOW content by following these easy steps:

1. Go to the web address:
<http://www.thomsonedu.com/thomsonnow>
2. Near the bottom of the web page, in the "Student's" section of "User's Resources", click "Browser Setup Help".
3. A java applet window opens (if it doesn't then either java needs to be set up or popups are blocked).
4. Go through the items in both the "System Requirements" and "Setup and Troubleshooting" sections to verify/change configuration.
